Subject: RE: 2019-06-25 # Tract 50666 # Request for Storm Drain Amendment

---

Selim and Scott,

> We considered your request to eliminate that portion of storm drain line "N" that would transmit runoff through forestall canyon adjacent to the driving range. It does seem the existing condition is functioning well, and by eliminating the storm drain, your proposal would be avoiding the high flows and velocities at the end of Line "N" that are not acceptable. The document that was recorded November 27, 2018 included a variety of restrictions and responsibilities for this property. On page 90, item #11 indicates that the property owner is responsible for the inspection of the canyon for erosion or slope failures and to remedy any such issues. As such, the property owner is responsible to repair the canyon for any issues caused by the elimination of the construction of Line "N". I am not opposed to eliminating this section of storm drain, accordingly your proposal is acceptable to the City.

Best regards,

Ron Dragoo, PE
City Engineer

Hi Ron, Allan,

Thank you for sending over the City comments.

I have revised our request letter to identify the design flow according to the proposed alternative. They are shown at the top of page 2.

My original letter did not show any design flow. The flow that are listed are the flows within Forestall Canyon (Pre and Post development). The proposed ultimate flow of Forestall Canyon would remain the same as it has been for the past 15 years of 633 cfs at Point "D" and 754 cfs at Point "B". I have also clarified that on page 2 of the letter.

Let me know if you would need anything else.

Thank you

Selim Sawaya P.E. / P.L.S.

Hi Scott,

We have a few comments, but with these changes we are good with the revised letter. Selim has requested a meeting this week to discuss this. I am out of the office, but if there is something that needs to be discussed with Allan or me directly, perhaps Allan can be available this Friday.

Ron Dragoo, PE

City Engineer

Mr. Dragoo,

On behalf of the Trump Organization, I am hereby submitting a request to amend the approval of the ultimate storm drain system of MTD 1472-5, tract 50666 as shown on the attached letter.

Kindly, let me know if you would need further information

Thank you
